Dungeon

You - you promised us hope
You gave us a dream
You promised us lies
Now you - you've taken it all
You've taken our lives
And thrown them away

Fight - fight for your lives
Fight - fight to be free, yeah
Death to them all, the liars and cheats
Fight - to kill them all...

They - they think that they're right
They think they're supreme
They're too blind to see
Now we - we rise to the call
Stand 'til we fall
Broken and weak...
