

Liberty

Duran Duran

If you want to stay with me at your liberty
If you want to be with me at your liberty
I tell you something to let you understand the way I feel
Just what you mean to me
Thank you for fine times we nearly made it all the way but no
It wasn't meant to be you say we feel the same there ain't no b
lame
To decide but if a little time could change your mind I'll be h
ere

And you can call me (if you want to stay with me at your libert
y)
You can hold me (if you want to be with me at your liberty)

Do you do you do you remember (remember) how lovers ripe on sum
mers heathen night
Would never seem to end and does December (December) come stirr
ing with that finger of desire
(Desire) To feel it once again
You worry 'bout your friends what if they find what's going on
(what's going on)
But if you wanna try to make it come alive I'll be here

And you can call me (if you want to stay with me at your libert
y)
You can hold me (if you want to be with me at your liberty)
And you can call me (if you want to stay with me at your libert
y)
And you can touch me girl (if you want to run to me at your lib
erty)

Help me out I live in doubt sort me out yeah

Don't make it every night don't wanna be the love of your life
(I'll be here)
So if you are inclined to spend a little time I'll be here

And you can call me (if you want to stay with me at your libert
y)
You can hold me (if you want to be with me at your liberty)
And you can call me (if you want to stay with me at your libert
y)
And you can touch me girl (if you want to run to me at your lib
erty)
Touch me girl (if you want to stay with me at your liberty)
Help me out (if you want to be with me at your liberty)
Sort me out (if you want to come to me at your liberty)
And you can set me free (if you want to run to me at your liber

ty)

If you wanna stay with me at your liberty

If you wanna be with me at your liberty

If you wanna stay with me at your liberty

If you wanna run to me at your liberty

At your liberty, at your liberty, at your liberty
