

# Sunset Garage

Duran Duran

So halfway drunk  
You'd never feel  
With your big eye punk  
Fashion fingernails  
Something cooking  
When you play guitar  
What a stake we're in  
How did we get so far?

Whatever happens, we're okay  
Hey, we're still alive  
To watch a sunset garage day  
Head into the light  
Oh, oh with that all goes wrong  
We're gonna make it on our own  
I promise us a garage day, oh

See how the town comes out  
Like a bruise  
When the wheels go round  
We can do anything  
Nobody looking  
And then 6 more come  
Maybe later, later  
Could take it up from here

Whatever happens, we're okay  
Hey, we're still alive  
To watch a sunset garage day  
Head into the light  
Oh, oh with that all goes wrong  
We're gonna make it on our own  
Oh, oh, if they bring us down  
We're gonna break out of this town  
Into a sunset garage day, oh

Yesterday looks so dead, so far away  
From this point of disarray  
Waiting for a sun burn into frame  
It's so fine, about the high water life  
Shifting with the paradise  
Drifting as the drain move into flame

Oh, oh with that all goes wrong  
We're gonna make it on our own  
Oh, oh, if it all goes wrong  
We're gonna make it on our own  
It's a sunset garage day, oh yeah!  
It's a sunset garage day, oh yeah, yeah  
It's a sunset garage day, yeah, yeah, yeah
