

# Water Babies

Duran Duran

All along the water, baby  
Take me to your water, baby  
All along your water, babe

All along the water, baby  
Take me to your water, baby  
All along your water, babe

Guess you know  
Where I wanna go  
Got to see the water flow  
Try to understand

Got me trapped  
Playing with me like a cat  
Scrape your fingers down my back  
Pin me to the ground

All along the water, baby  
Take me to your water, baby  
All along your water, babe

All along the water, baby  
Take me to your water, baby  
All along your water, babe

I'll get by  
Can't you see I'm burning up  
When you come and turn it up  
Higher every time

If I stay  
Oh, the end is near  
Come and get me out of here  
Come and get me now

All along the water, baby  
Take me to your water, baby  
All along your water, babe

All along the water, baby  
Take me to your water, baby  
All along your water, babe

Tell me is there any left?  
I wanna drink it up, I'll drink it up  
Baby, if there's any left  
I'll drink it up, drink it up, drink it up

All along the water, baby  
Take me to your water, baby  
All along your water, baby

Take me to your water, baby  
All along the water, baby

All along the water, baby

Take me to your water, baby  
All along your water, babe

Take me to your water, baby  
All along the water, baby  
Take me to your water, baby  
All along your water, baby

Take me to your water, baby  
All along the water, baby  
Take me to your water, baby  
All along your water, baby
