

Salvation

Dynazty

In my time I have seen many things are to the believe
Is there an answer to this life we live
We brake before we band that's we too struggle to defend it
A little time we have until the end
Desperate callings in the winter
Words are wisdom get you here
You falling under feels I feel
And the bangle of the night life will quickly pass you by
The hands are tight you cannot define

Salvation take me home,
Til I can see the light shining bright in front of me
You my desperation, selfish, my soul, I will never get to define my way

I cross every time and all I see is
I watch it and I know how it feels doing for love
So, then your time is fade away
Like a flower on winter land, or winning cage
And soon you'll see

I'm just an calling man, I hang inside out
Take me, where is no much suffering
Bring me please again and no think I
This is the final stake
This is my recreate

I was born in a savory, straight to my own destiny
No I brake this chain, ain't no pain and fly away
I would be sure free, free from misery
Set me

I will live again, breath without a chain
This is enough, to begin, this is the end

Salvation take me home,
Til I can see the light shining bright in front of me
You my desperation, selfish, my soul, I will never get to define my way

In my time I have seen many things are to the believe
Is there an answer to this life we live
We brake before we band that's we too struggle to defend it
A little time we have until the end
Desperate callings in the winter
Words are wisdom get you here
You falling under feels I feel
And the bangle of the night life will quickly pass you by
The hands are tight you cannot define

I cross every time and all I see is
I watch it and I know how it feels doing for love
I was born in a savory, straight to my own destiny
No I brake this chain, ain't no pain and fly away
I am not a fade, I will, ooh gotta take me

And all my suffering bring me feels again
With nothing left, this is the final stand

Salvation take me home,
Til I can see the light shining bright in front of me
My final destination here I come
I will live again til I find my way, til I find my way

(Salvation take me home,
Til I can see the light shining bright in front of me
My final destination here I come
I will live again til I find my way, til I find my way)
