

Turn Me On

E-Rotic

Turn me on turn me on
Just do it right - you can't go wrong
I'm the radio that plays your favourite song
You turn me on turn me on
You sure know how - so turn me on
Baby don't you wait until the night has gone
Just turn me on

You are so cool - don't know what to do
Oh babe I can't come close to you
I want you to just feel good
Hey can't you see I'm in the mood
Want you touchin' mine
I'm just waiting for a sign
I wanna make you feel so hot
I wanna find your tender spot

Turn me on turn me on
Just do it right - you can't go wrong
I'm the radio that plays your favourite song
You turn me on turn me on
You sure know how - so turn me on
Baby don't you wait until the night has gone
Just turn me on

Turn me on oh babe turn me on please ooh

You are so sweet - I've gotta admit
I wanna know if my key will fit
So let me seek your honey pot
I want all that you have got
Want you touch my skin
Let me tell you it's no sin
You may love me or not
I wanna find your tender spot

Turn me on turn me on
Just do it right - you can't go wrong
I'm the radio that plays your favourite song
You turn me on turn me on
You sure know how - so turn me on
Baby don't you wait until the night has gone
Just turn me on

Turn me on oh babe turn me on please
Ooh turn me on aaah turn me on
Turn me on oh babe turn me on please
Ooh turn me on aaah turn me on

Turn me on turn me on
Just do it right - you can't go wrong
I'm the radio that plays your favourite song
You turn me on turn me on
You sure know how - so turn me on
Baby don't you wait until the night has gone
Just turn me on
