

## Fall From The Sky

E-Type

You had to go that far to prove your strength and ability  
To stand alone against the tide of tears  
It made me see some of my own stupidity  
But it's too late to look back at the old fears

So tell me, I'm lost and I'm out here  
Tell me, if there is a chance...

I fell like I fall from the sky  
I wonder where you are  
I never did understand why  
You had to go that far....

I feel like I fall from the sky  
I wonder where you are  
I never did understand why  
You had to go

We could have had all we wanted  
Do you remember all the things we said  
Or have you lost that sense of freedom we hunted  
Are all the dreams we had forgotten and dead?

So tell me, I'm lost and I'm out here  
Tell me, if there is a chance

I know that it's far to late  
Too many things have been said  
But I wonder if you....  
Could ever believe in me  
Tell me, if there is a chance
