

## This Is The Way

E-Type

This.....this is the way  
This is the way I wanna live  
I'm going through changes  
This is the way I wanna live

From this day on noone is going to tell me  
what I should do or what I should not  
that ain't the way,  
the way that it shall be fight it all the way  
so let them vultures prey on each other  
don't let them spoil it you've come this far  
coming out like a force of nature  
this is the shape of things to come...

This.....this is the way  
This is the way I wanna live  
I'm going through changes  
( coming up, coming up )  
This is the way I wanna live

So if you're feeling sort of down & out  
don't loose ya faith, wipe away the doubt  
you must take a stand that's what it is about  
if nothing else works just SHOUT!  
You're no Baloney Homo Sapien  
you're the original king of the hill again  
coming out like a force of nature  
this is the shape of things to come...

This.....this is the way  
This is the way I wanna live  
I'm going through changes  
( coming up, coming up )  
This is the way I wanna live
