

## Close Your Eyes

Steve Earle

I dreamed you were standing  
On the edge of the world  
And I thought I heard you call out  
With one foot on the rock

And one a cloud  
Was it just the wind that I heard?  
Close your eyes  
This world won't stop spinning you know

Close your eyes  
Why don't you just let go?  
Thousands of people searchin' out there  
Most of 'em lookin' for love

But nothing is something  
That there's plenty of  
In time we'll all get our share

When I was a child  
And they put me to bed  
They always took care that I prayed

But the part that goes, if I should  
Die 'fore I wake  
Echoed all night in my head
