## If You Need a Fool

## **Steve Earle**

Darlin', I could tell we're through that leavin' look's all ove r you

I'll be waitin' here no matter what you do, call me if you need a fool

Go and find another guy and if he don't believe your lies You know, there's someone who'll swear every word is true Call me if you need a fool

They're just not makin' fools the way that they used to They don't come back for more the way I always do So if you ever change your mind, I'm not very hard to find You can find me in the phone book under Blue Call me if you need a fool

They're just not makin' fools the way that they used to They don't come back for more the way I always do So if you ever change your mind, I'm not very hard to find You can find me in the phone book under Blue Call me if you need a fool, call me if you need a fool
