

## Cruel World

Econoline Crush

Don't judge me with your prejudice  
Your church and God  
Tell me what the hell you got  
That I want

Chorus:

You can't save us all, the journey of the sick  
We're never very long, in your cruel world  
Don't trust me, comfort me with sentiment  
You don't mean  
Don't flood me, in rivers of medicine  
I can't swim

(Chorus)

Hold me, accountable for all I've done  
As I, will hold you

(Chorus)
