

# Loneliness

Ed Harcourt

In an empty cinema  
Loneliness  
When your old friends drift apart  
Loneliness  
Wandering 'round the house in the dark  
Loneliness  
Faded glory you're a broken star  
Loneliness

Loneliness, loneliness  
What would I do without you?

Stays around won't let you be  
Loneliness  
Corners me in dead-end streets  
Loneliness  
To bring unwanted memories  
Loneliness  
That find their way into my blood stream  
Loneliness

Loneliness, loneliness  
What would I do without you?  
Loneliness, loneliness  
Is this all you have to give me?

Your love is a place for a lonely man  
With too much in his head  
The liars and thieves who cramp your style  
Won't be there for your last breath  
Be there for your last breath

Loneliness, loneliness  
What would I do without you?  
Loneliness, loneliness  
Is this all you have to give me?  
To give me, to give me
