

Two Way

Eden's Crush

Who drew the lines that say
That it has to be one way
You and me's a two-way thing
I can feel a spark
when you're touching me I start
To realize how hot this could be

If you want me tell me so
Don't make me wait too long
I need to hear it from you
So what you wanna do?

[Chorus:]
Love is a two-way thing
Where we begin is up to you and me
Love is a give and take
And what we make comes from you and me

Who says you have to call
Be the one to set things off
See I don't wanna wait for you
'Cause this feeling inside
Is something I won't hide
Until I'm sure you're into me too

Boy I've told you what I want
Don't make me wait too long
I'm ready for you
So what you wanna do?

Love is a two-way thing
Where we begin is up to you and me
Love is a give and take
And what we make comes from you and me

Love is a two-way thing
Where we begin is up to you and me
Love is a give and take
And what we make comes from you and me

You don't have to follow me
Let me know whatever you want
No need
That's where I'm gonna be

Love's a two-way thing
You and me
A two-way thing
Love's a give and take
What we make
You and me

Love is a two-way thing
Where we begin is up to you and me
Love is a give and take
And what we make comes from you and me

Love is a two-way thing
Where we begin is up to you and me
Love is a give and take
And what we make comes from you and me

Love is a two-way thing
Where we begin is up to you and me
Love is a give and take
And what we make comes from you and me
