Space house of black house of lights House of moise you've never heard Full of vacuum and crowded of shadows

Space like a watch with no time Like a book without an end An equation and thousands solutions

I don't wanna lose my belief now ,
That space
Somewhere has a limit beyond
What I see and what I breathe
I live

I don't wanna lose my belief now That space Somewhere has an end and beyond Who knows what we Will find out there Somewhere

Space house of black house of lights House of moise you've never heard Full of vacuum and crowded of shadows

Space like a watch with no time Like a book without an end An equation and thousands solutions

I don't wanna lose...
