

Laugh It Off

Eisley

Was it really that bad?
Oh, should we learn to laugh it off?
Why are you so sad?

'Cause I believe in you
No matter
What it is

So come on girl
'Cause you will learn to get ahead
We have nothing to lose
And we can hold the weight of it
And if we wait for summer
It will be better than this

Oh, if we wait for summer...

You know it's not that bad
And I can see you in the mornin'
Combing your black hair
Well, you'll just come to tell:
"I know when it ends"

Come on girl
'Cause you will learn to get ahead
We have nothing to lose
And we can hold the weight of it
And if we wait for summer
It will be better than this

Well, if we wait for summer...

Bury my heart
In your tomb
Oh, I'll bury my heart
In your tomb

And we will bury our losses together
And we will bury our losses together

Oh together, together, together
Together, together, together

Oh, come on girl
'Cause you will learn to get ahead
Oh, we have nothing to lose
And we can hold the weight of it
And if we wait for summer
It will be better than this

Oh, if we wait for summer...
And we will bury our losses together
