

# Angel

Electrasy

Sometimes I cry, you're what I left behind  
Sometimes I see, you standing next to me  
I wanna get high, sometimes I don't know why  
I thought I was free, but all I can do is sit and dream

Oh my angel, you're made in England ah so well  
you miss me she said and it's true  
there's noone else, only you

all my all my all my angels

I sit all alone, and wish somehow you're not gone  
so now I believe, that noone could ever set me free

Oh my angel, you're made in England ah so well  
you miss me she said and it's true  
there's noone else, only you

Oh my angel, you're made in England ah so well  
you miss me she said and it's true  
please believe me oh I do

Oh my angel, you're made in England ah so well  
you miss me she said and it's true  
there's noone else, only you

all my all my all my angels  
all my all my all my angels
