

# Rip It!

## Electric Six

When a problem needs a problem solver  
Guess who gets the call?  
Me that's all

You're duelling with a plugged revolver  
Guess who dropped the ball  
The writing's on the wall

The French sent us copper lady  
Long since turning green  
From New York to Los Angeles  
And all points in-between  
Burning 50 million MegaWatts of  
Gasoline

I accept my destiny  
I shall start a legacy  
The likes of which you've never seen  
Make them rip it  
Rip it clean  
I accept my destiny  
I am a ripping machine  
So help me!

Rip it! Rip it!  
Rip it! Rip it!  
Rip it! Rip it!

You're listening to your politicians  
They claim to speak to God  
Can't you see it's just a fraud?  
You're rituals and superstitions  
Don't you find them kind of odd?  
Might as well kneel before Zod

The French sent us a copper lady  
Long since turning green  
From New York to Los Angeles  
And all points in-between  
Burning 50 million MegaWatts of  
Gasoline

Oooh!

I accept my destiny  
I shall start a legacy  
The likes of which you've never seen  
Make them rip it  
Rip it clean  
I accept my destiny  
I am a ripping machine  
So help me!

Rip it! Rip it!  
Rip it! Rip it!  
Rip it! Rip it!

Put me in motion  
Drink the potion  
Use the lotion  
Drain the ocean  
Cause commotion  
Fake devotion  
Entertain a notion  
Be Nova Scotian

Drink the potion  
Put me in motion  
Use the lotion  
Drain the ocean  
Cause commotion  
Fake devotion  
Entertain a notion  
Be Nova Scotian

Drink the potion  
Put me in motion  
Use the lotion  
Drain the ocean  
Cause commotion  
Fake devotion  
Be Nova Scotian  
Be Nova Scotian  
Be Nova Scotian  
Be Nova Scotian  
Be Nova Scotian  
Be Nova Scotian  
Be Nova Scotian  
Be Nova Scotian  
Be Nova Scotian
