

# The New Shampoo

Electric Six

The secret ingredient in the new shampoo  
It's good enough for me and it's good enough for you  
You've done Head & Shoulders and you've done Selsun Blue  
Now start washing your hair with the new shampoo

I see the pictures of young men just like me  
Washing their hair being everything I want to be  
I get excited seeing young men just like me  
Becoming clean

Suckin' out the juice of the new shampoo  
Now there's nothing left for me and there's nothing left for you  
They had to do something now there's nothing left to do  
It's the remarkable science of the new shampoo

I see the men in the locker rooms with me  
Rinsing and toweling with such urgency  
I see the men showering next to me  
I'm becoming a queen

We've, we've come a long way

Running out of supplies of the new shampoo  
They riding in Shanghai in Kalamazoo  
So come on over give the Devil his due  
'Cause he's the inventor of the new shampoo

Give me a mirror so I can finally see me becoming  
Who I want to be  
Now my hair is making a mockery  
Of me
