

Turn It Up!

Electric Six

Got [?] speakers
I've never seen [?] features
When I listen to music I like to put a little mustard on it
I can blow up the government with my mind

Hey, turn it up, I wish this song was louder
You don't got to tell me, I know it's not loud enough
Hey!

Now [?] nicer than me
[?] liven it up, now suck on my laser beam, hey
Police and the demon, [?] the hour

Turn it up, I like it loud
You don't got to tell me, I know
You don't got to tell me, I know it's not loud enough
You don't got to tell me, I know it ain't loud enough
It ain't loud enough
It ain't loud enough
Are you coming here tonight?
Are you coming here tonight?

Turn it up, I wish this song was louder
It ain't loud enough
You don't got to tell me, I know it ain't loud enough
Turn it up, I wish this song was louder
It ain't loud enough
You don't got to tell me, I know it ain't loud enough

Gonna blow it up, like a keg with powder
Yeah, turn it up, I wish this song was louder
Turn it up, turn it up
Turn it up, turn it up
