## **Sun Stand Still**

## **Elevation Worship**

We confess our dreams are way too small God for who You are You're beyond expectations We're crying out for restoration here You are the God who saves You're beyond limitations

Sun stand still
Oceans part
Nothing is too hard
Nothing is too hard
Refuge for the weak
Strong and mighty
Nothing is too hard
Nothing is too hard

Within us, the spirit who raised Christ Victor over death You're the God of resurrection More than we could ask or imagine This promise is ours The hope of our salvation

Sun stand still
Oceans part
Nothing is too hard
Nothing is too hard
Refuge for the weak
Strong and mighty
Nothing is too hard
Nothing is too hard

We believe, we believe that You are God Nothing is too hard
