

# We Are Alive

## Elevation Worship

You came to change the world  
You came, it was the only for us to be restored  
You came to make us new  
You came to warm our dying hearts and bring us back to You

And when You came, You broke our chains  
And You lifted us out of our graves

We are alive because You died  
You buried our shame, when you rose from the grave  
You became man, and You conquered our sin  
So we'll live this life to celebrate, celebrate Your name

You came to save the world  
You came because You loved enough to fix what we destroyed  
You came into our hearts  
We were falling down until You came and rescued us

And when You came, You broke our chains  
And You lifted us out of our graves

We are alive because You died  
You buried our shame, when you rose from the grave  
You became man, and You conquered our sin  
So we'll live this life to celebrate, celebrate Your name
