Honey Roll

Elton John

Do you want to try to ride me on your pony Loosen up my tie to help me breathe Insisting that I pay my alimony Each and every day is the same old scene

Come on do the roll, do the roll with me Come on do the roll, do the roll with me I said honey, I said honey
I said honey, I said honey
Come on do the honey roll with me

Well I want to say that I'm your mister funky Singing the song thats taking up your time I did the dog and now I'm your funky monkey Sing it children, sing it off your mind
