## I Am Your Robot

**Elton John** 

I've been beaming aboard her for a light year From a strange craft She's got a subtle touch on the silver key To a clockwork heart

I am your robot, I am your robot I am your robot man I am your robot, I am your robot I am your robot man

You went and flipped the switch and turned me positive When I was negative I've been stumbling around like a metal man On the graveyard shift

I am your robot and I'm programmed to love you My serial number is 44357
