Just Like Noah's Ark

Italiano promotion men Chomping a big cigar Slapping backs and making cracks About the fags in the bar Radio boss dipping his nose in a little white packet You put it out son and we'll all back it Yea it's just like Noah's ark

R: And the waves are crashing round us But we're ready for the flood And we don't need a sign like an olive branch In the beak of a snow white dove We're not as dumb as we might look You can't keep us in the dark With me and you it's two by two just like Noah's ark

These four walls have seen The Cockettes and the Casters From San Francisco to Ohio I've seen beauty and disaster Cocky young roosters and little chicks Flashing smiles, shaking them hips Trying to hook it up for the late night shift Here in Noah's ark

R: And the waves are crashing round us...

R: And the waves are crashing round us...
