

# Stinker

Elton John

One, two  
One, two  
One, two, three, four

Say what you will but I'm a stinker  
I come crawling up out of my hole  
Dirt in my toes, dirt up my nose  
I'm a perfect curse to pest control

Seeds and weeds and muddy meals  
Crawling around the earth  
Down in the ground where the sun don't pound  
Ohh, I hibernated in English turf

Better believe it, I'm a stinker  
Burning vermin stink  
Watch me get as high as a heat wave honey  
Tell me what your hound dogs think

Set in my style with a beady eye  
I got connections with the underground  
Call me a common rodent boy  
Sitting here safe and sound

Better believe it, I'm a stinker  
Burning vermin stink  
Watch me get as high as a heat wave honey  
Tell me what your hound dogs think, yea

Aoo, better believe it, I'm a stinker  
Burning vermin stink  
Watch me get as high as a heat wave honey  
Tell me what your hound dogs think

Some mole hill mother sauntered by  
Acting like the ace of spades  
Ohh, don't give that cutey no reason to shoot me  
When I'm living on the eggs she laid

Ohh, better believe it, I'm a stinker  
Burning vermin stink  
Watch me get as high as a heat wave honey  
Tell me what your hound dogs think

Stinker, stinker

Hey, better believe it, I'm a stinker  
Yes me, burning vermin stink  
Watch me get as high  
Watch me get as high as a heat wave honey  
Tell me what your hound dogs think  
Aoo, better believe it
