

Don't Say A Word

Elysion

I feel you
Don't say a word
I know how it feels
to lose somebody

I see you
Walking upon
Your life alone
Like everybody

Nobody knows what's about to happen
The feeling's getting...
Somehow I long the years of serenity
Nobody cares what about to happen
The feeling's getting...
Somehow I long the years of serenity

I feel you
Don't say a word
now all I ever dream
is heal somebody

I see you
walking upon
your life alone
Like everybody

Nobody knows what's about to happen
The feeling's getting...
Somehow I long the years of serenity
Nobody cares what about to happen
The feeling's getting...
Somehow I long the years of serenity

I feel you
I see you
walking alone

I feel you
Oh, I see you
Walking a world
Your life
Alone...

Nobody knows what's about to happen
The feeling's getting...
Somehow I long the years of serenity
Nobody cares what about to happen
The feeling's getting...
Somehow I long the years of serenity

Nobody knows
The feeling's getting...
Somehow I long the years of serenity
Nobody cares
The feeling's getting...
Somehow I long the years of serenity
