

How Lucky I Am

Emerson Drive

Some days, blue skies are endless
Sometimes rain falls like tears
Every day that you're with me
Is a day, I'm glad to be here

There are high roads, low roads and choices
Reasons to doubt and believe
But I'll be okay
As long as you're right here with me

When the new day falls on my window
Soft as the touch of your hand
And your light fills my heart and warms my soul
And I know how lucky I am

Some days my prayers are answered
Sometimes the answer is no
And you smile at me
It's more than my heart can hold

When the new day falls on my window
Soft as the touch of your hand
And your light fills my heart and warms my soul
I know how lucky I am

When the new day falls on my window
Soft as the touch of your hand
And your light fills my heart and warms my soul
I know how lucky I am

When the night falls soft on my window
And the stars rise together and dance
And your light fills my heart and warms my soul
I know how lucky I am
