

I Love This Road

Emerson Drive

There's a long, long stretch of highway
Here in front of me
It just seems to keep on windin'
As far as I can see

Sometimes, these wrong turns are sweet mysteries
But sometimes, they take us where we're meant to be

I love this feelin' of freedom
Runnin' through my veins
Spent too long at the crossroads
Waitin' for the light to change
Even if it takes forever
And I never find out where it goes
Heaven knows I love this road

These days become a lifetime
It happens way too fast
You miss what's 'round the corner
If you just keep lookin' back

Sometimes, it feels like you can't find your way
And sometimes, all you have to go onstage

But I love this feelin' of freedom
Runnin' through my veins
Spent too long at the crossroads
Waitin' for the light to change
Even if it takes forever
And I never find out where it goes
Heaven knows I love this road

I love this road

Wind at my back, the sun on my shoulders
Pushin' me, movin' me a little bit closer
Sometimes, a little trust is just enough to take you there

I love this feelin' of freedom
Runnin' through my veins
Spent too long at the crossroads
Waitin' for the light to change
Even if it takes forever
And I never find out where it goes
Heaven knows I love this road

I love this road
I love this road

I love this road
I love this road

Sometimes, these wrong turns are sweet mysteries
I love this road
I love this road
