

That Kind Of Beautiful

Emerson Drive

Have you ever been flyin' down a long country road
With the windows open and the sun rushin' in
Have you ever sat starin' at shoreline all night
Don't wanna blink your eyes thinkin' man this is it

And the last thing you think about is leavin
You cant believe you're seein' what you're seein

Shes that kind of stop you right in your tracks
Knock you out just like that somethin' you just cant explain
That kind of blows your mind every time
That you thought you'd never find shes that kind
That kind of beautiful

Shes like that feelin' you get on a Sunday
Forgiveness when you need it the most
Like that little girl singing every single word
With a big smile in the front row
Wanna stand so close you can feel it
Yeah you're wishin' that the whole world could see it

Shes that kind of stop you right in your tracks
Knock you out just like that somethin' you just cant explain
That kind of blows your mind every time
That you thought you'd never find shes that kind
That kind of beautiful

Once you've held on you wont remember where you've been
Just like a song you want to sing again and again

Shes that kind of stop you right in your tracks
Knock you out just like that somethin' you just can't explain
That kind of blows your mind every time
That you thought you'd never find she's that kind
That kind of beautiful
