Generation

Emerson Hart

You're coming up like a flower You're coming up through the cracks that live ?round here Everybody know we have no fear

We are the wind of change change coming We take a stand where so many never go We will shout it out to let you know This is my generation

We want an answer to the questions
We wanna knock down all the walls they built for you
We wanna know the truth not be lied to

We want to know the face of freedom
We want to make a place where we can learn to love
Build a world that we can be proud of
This is my generation

'Cause we just wanna dance all night Live inside the spark of life This might be the only time around

'Cause we just wanna dance all night Live inside the spark of life This might be the only time around

You're coming up like a flower
You're coming up through the cracks that live ?round here
Everybody knows we have no fear
This is my generation
