You said too much  
And what you said, it was a lie  
You said too much  
And what you said it was a crime

I've bled too much  
With every lie you keep on telling  
I've bled too much  
This time, each time

The harder we fall  
The closer we are  
Well I don't feel blue  
When I'm with you

You said too much  
And what you said, it was a lie, lie, lie  
And what you said, it was a lie, lie, lie  
And what you said, it was

Each time we fall  
You say too much  
This time, each time

The harder we fall  
The closer we are  
Well I don't feel blue  
When I'm with you

You said too much  
And what you said, it was a lie, lie, lie  
And what you said, it was a lie, lie, lie  
And what you said, it was

The harder we fall  
The closer we are  
Well I don't feel blue  
When I'm with you

You said too much  
And what you said, it was a lie, lie, lie  
And what you said, it was a lie, lie, lie  
And what you said, it was

This time I don't feel so blue  
When I'm with you, when I'm with you  
This time I don't feel so blue  
When I'm with you, when I'm with you

And what you said, it was
