

Closer

Émilie Simon

Come closer, she said
I can't hear you anymore
It's been the wrong place and the wrong time

I just keep an eye on you
I keep an eye on you

Don't you forget what it's like when you're here in my
arms
Never thought I was right, never thought we were wrong
It just seemed very nice to feel closer to you

Come closer, she said
You're my baby, my baby, my baby
I cannot stand the way you seem to disappear

I just keep an eye on you
I keep an eye on you

Don't you forget what it's like when you're here in my
arms
Never thought I was right, never thought we were wrong
It just seemed very nice to feel closer to you

Come closer, she said

Come closer, she said
I just keep an eye on you
