

Hold Me

Emily King

I'd just like you thank you for everything you are
And everything you do, it reaches out so far
Never change it for no one, don't compromise yourself
There's just so much of you to love
And it's just like magic
You keep callin', callin' over and over again, yes
Keepin' me faithful, keepin' me runnin' and in love
So come and hold me darling, 'cause you captured me
And ohh, come and love me darling, 'cause you move me
You make me glad to be here, you help me to believe
That I can do anything, if I just set my heart free
And ohh darlin', I just need you
I need you to know that I care, ohh
You helped me out of my dark place
Thought I would never get out
You told me that you'd keep me safe
And not to worry, 'cause things were rough
But you never broke down
So come and hold me darlin', 'cause you captured me
And ohh, come and love me darlin', 'cause you move me
Come and hold me darlin', 'cause you captured me
And ohh, come and love me darlin', 'cause you move me
You helped me out of my dark place
Thought I would never get out
You told me that you'd keep me safe
And not to worry, 'cause things were rough
But you never broke down
And no one else could ever make me feel this way
No, no, no, ohh
Since I met you darlin' my whole life has changed
So want you do me one thing, won't you?
Come and hold me darlin', 'cause you captured me
Come and hold me darlin', 'cause you captured me
