

Some Things Never Die

Emphatic

Looking out into the great unknown
In here...waiting for the mystery to unfold
Because every remedy I dream of fails me
When I think I'm getting out I end up back where I was
When you were the one
And I'm so tired of feeling like...

Like I can't find a reason I can justify
Because I keep hoping you'll fade in tonight - but your memory'
s
Always there beside me like some holy light
But no matter how hard that I try
I guess some things never die (oh!)
I guess some things never die

Here I am trying to hold in self
I'm still - more fragile than I've ever been
I know that you're never coming back but I can't
Let go of the past - my mind has got me
Stuck where it was
You're still the only one
But I'm so tired of feeling like...

Like I can't find a reason I can justify
Because I keep hoping you'll fade in tonight - but your memory'
s
Always there beside me like some holy light
But no matter how hard that I try
I guess some things never die

It's about time that I realized open up my eyes and let you go
But deep inside I don't think we're meant to be alone

Some things have to end - some things don't survive
But I know somethings never die!

I can't find a reason I can justify
Because I keep hoping you'll fade in tonight - but your memory'
s
Always there beside me like some holy light
But no matter how hard that I try
I guess some things never die
I guess some things never die

Some things never die
