

## Left Me For Dead

English Dogs

When I needed you most you walked out the door  
Blood on my face as I lay on the floor  
I never even knew you had a boyfriend,  
15 stone all muscle round the bend

Leave me be leave me be  
I've had enough can't ya see  
You left me for dead left me for dead  
You kicked me in the head and you left me for dead  
Left me for dead left me for dead  
You kicked me in the mouth and left me for dead.

You can't recognise my bloodstained face  
But you still carry on cos you're a real headcase  
I never even knew that she went out with you  
But it's too late now cos we've had our screw.

Leave me be, leave me be  
I've had enough can't ya see  
You left me for dead left me for dead  
You kicked me in the head and you left me for dead  
Left me for dead left me for dead  
You kicked me in the mouth and left me for dead.
