

Depleted uranium is used on the ends of bullets  
And on the ends of shells because it is so hard  
Almost any armament is vulnerable  
To something that is tipped with depleted uranium  
In the cities and towns of Afghanistan  
In the heart of the Balkans, the heart of Iraq  
Not your Grandfather's style of deadly munitions  
It's silent and deadly years after the mission  
Depleted uranium is a war crime  
Depleted uranium is a war crime  
Gonna cut through their armor, then cut through your lungs  
If you make it home alive, you'll still die young  
A greedy gang of liars, yeah, we've seen it all before  
A moneymaking scheme led by war-profiteering whores  
Depleted uranium is a war crime  
Depleted uranium is a war crime  
They were throwing it away  
Until they figured out they could use it for armament  
Half-life, 4.5 billion  
Half-life, you'll waste away  
Half-life, 4.5 billion  
Half-life, you'll waste a  
we've heard their lies before and we know they're lying again  
Feels like a deja vu of Agent Orange and Vietnam  
Weaponry so sadistic, it is hard to comprehend  
War profits surge with every breath by Uncle Sam  
Depleted uranium is a war crime  
Depleted uranium is a war crime  
Depleted uranium is a war crime  
We went to a hospital in Southern Iraq  
And a woman was there with a very deformed child  
And her husband had been in the Iraqi Army  
And had been in the battles in Southern Iraq  
And came home and they produced a baby  
That was, very severe malformations  
Both the Leukemia rates in children  
And malformations at birth had increased by six hundred percent  
And it was clearly an epidemic where all this do had been dumped  
It becomes a dust that can be inhaled  
And infect the blood stream and the rest of the body  
And it was the opinion of the doctors there  
That this was caused by depleted uranium  
They simply saw this as being a direct result  
Of the war by the United States  
Half-life, 4.5 billion  
Half-life, we waste away  
Half-life, 4.5 billion  
Half-life, we waste away  
Half-life, 4.5 billion  
Half-life, we waste away  
Half-life, 4.5 billion  
Half-life, we waste away  
The doctor said, 'Women at the time of birth  
Don't ask if it's a boy or a girl, they ask, 'Is it normal?''  
The military denies first and then after the evidence builds to the point  
Where they can no longer deny, then they do the research  
That's what happened in the Vietnam era around Agent Orange

And I suspect and I'm worried that that's what will happen this time
