

# Chief Rebel Angel

## Entombed

Down here on the ground since it all began  
Experiment in moral and behavior  
In spite of all imperfection I'm a fan of man  
The worm is my rose too

Many my name  
But one and the same  
Chaos, being  
And the everlasting flame

Phosphoros  
Lucifer  
Stand up!  
In praise of the morning star  
Phosphoros  
Lucifer  
Say it!  
Chief Rebel Angel  
Phosphoros  
Lucifer  
Stand up!  
In praise of the morning star

Don't get too cocky, keep yourself small  
Don't ever let them see you coming  
Look at me, underestimated from day one  
You never see me coming, I'm a surprise

Solid my game  
We're one and the same  
The chaos, the being  
And the everlasting flame

Watching, waiting  
Holding my breath  
But I'm no pupppeteer  
The stage is set, you pull your own strings now  
Like butterfly wings  
Once they're touched they never leave the ground  
No,  
I don't make things happen here

Phosphoros  
Lucifer  
Say my name
