

Nobodaddy

Entombed

Nobodaddy, that's my name
And it's all my game
Everything you see
Know it's been set up by me

Got the fury and the flame
And the box in which it came
A know you want to be
Right here next to me

Sister brother
Unite all Satan's lovers
No-bo-daddy is the CEO
Sister brother
Unite all Satan's lovers
No-bo-daddy-o

Nobodaddy, that is I
And I never die
I mean eternal bliss
Come give daddy a kiss

Goddess of the promised land
Was spitting in your hand
Now you're leaving her
For the love of Lucifer
