Closer my love Veil me with your warmth Oh how afraid we are

I hold my breath
I try to hide my pain
Here in your embrace
So this pain would be gone

This time I want you to Dry all your tears as we make...

Love...

For the last time
Replace your heart with
Mine...
Deep inside
Please stay with me through the night

I rinse my face With your tears Too many tears for the end Darling, please, don't you cry

You hold your breath You try to hide your pain Here in my embrace So this pain would be gone

This time I want you to Dry all your tears as we make...

Love...

For the last time
Replace your heart with
Mine...
Deep inside
Please stay with me through the
Night...
For the last time
Replace your heart with
Mine...
Deep inside
Please stay with me through the night

Fly without sorrow
In my dreams we meet again
For you I live, I would die for you
You'll stay deep inside in my heart
