

In The Groove

Enuff Z'Nuff

Time goes slower, your thoughts start flowing over
lights get lower, the chip falls off your shoulder
you're in the groove
you're in the groove

When you're in the groove
and your body can't help but move
and the rock'n roll feels so smooth
and you ain't got nothing left to prove
you're in the groove

Like the weather, it all just comes together
love feels better, and you hope it lasts forever
you're in the groove
you're in the groove

When you're in the groove
and your body can't help but move
and the rock'n roll feels so smooth
and you ain't got nothing left to prove
you're in the groove

Like the weather, it all just comes together
love feels better, and you hope it lasts forever
you're in the groove
you're in the groove

When you're in the groove
and your body can't help but move
and the rock'n roll feels so smooth
and you ain't got nothing left to prove
you're in the groove
