

# Sing To Me

Eric Benét

Can I tell you shall I count the way  
Can I find the words that could explain  
I have my heart of my life soul you changed forever

You ease my pain with such gentle hand  
When im with you im a better man  
And I never ever understand the way

That you sing to me without musical words  
The Sweetest melody that I've ever heard  
When I look in to your eyes  
I hear the song that never dies  
Cause you sing to me

There so much evil in the world today  
Everybody tried to made a way

Looking for a peace love to make Get better  
But we can make it through and rise above

With your letter says I made of love  
And I know that will be strong enough to  
Go on and go on and go on

Cause you sing to me without musical words  
Sweetest melody that I ve ever heard  
Sweet enough to make me cry  
Cause it keeps our love alive  
Sing to me sing baby

And leaving through the fire  
I don't want love will find a way  
And your the reason why I gotta  
I'm singing stronger everyday

You sing to me without musical words  
Sweetest melody that I ve ever heard  
Cause when I look in to your eyes  
I hear the song that never dies  
Sing to me oh... sing baby

You sing to me without musical words  
Sweetest melody (ooh sweetest melody) that I ve ever heard  
Sweet enough to make me cry (make me cry)  
Cause it keeps our love alive

You sing to me you sing to me  
Without musical word  
Sweetest melody that I've ever heard  
Cause When I look in to your eyes  
I hear the song that never dies  
Cause you sing to me (everytime I look in to your eyes its like I can hear)  
you sing to me  
Sing to me (I love you so much babe)
