

Timeless

Eric Saade

I've got a glitch in my head
Hook me up with your lips
Heal my body with your kiss
You play tricks with my head
But you're everything that's fitting me
I've got a world to show you
I wanna know you
But time is moving way to fast
We gotta stop, we're speeding
Freeze this feeling
And maybe we could slow it down, yeah

I feel the love from your heart is hitting me
I wanna stay to be yours for eternity
Don't let the feelings go away so rapidly
The clocks will never surround us
We could be timeless
We could be timeless, yeah
We could be timeless
We could be timeless, yeah

You're so beautiful
I can't help myself, I stare
Love is filling up the air
So incredible
I can only see myself with you
We gotta stop, we're speeding
Stop this feeling
Maybe we could slow it down
I've got a world to show you
I wanna know you
But time is moving way to fast, yeah

I feel the love from your heart is hitting me
I wanna stay to be yours for eternity
Don't let the feelings go away so rapidly
The clocks will never surround us
We could be timeless
We could be timeless, yeah
We could be timeless
We could be timeless, yeah

This is timeless
This is timeless
So maybe we should slow it down
I feel the love from your heart is hitting me
I wanna stay to be yours for eternity
Don't let the feelings go away so rapidly
The clocks will never surround us
We could be timeless
We could be timeless, yeah
We could be timeless
We could be timeless, yeah

I feel the love from your heart is hitting me
I wanna stay to be yours for eternity
Don't let the feelings go away so rapidly

The clocks will never surround us
We could be timeless
We could be timeless, yeah
We could be timeless
We could be timeless, yeah
We could be timeless
