

I Wonder Why I Worry Over You

Ernest Tubb

Dear you're not worth to what it takes to mention your name
I wonder why I worry over you
The way you kicked my love around is such a crime and shame
I wonder why I worry over you
Friends with good intentions all tell me to get smart
And run away this very day before you break my heart
You'll never change your wicked ways you'll always be the same
I wonder why I worry over you
Even when you know you're wrong I still get the blame
I wonder why I worry over you
If there's an art in breakin' hearts you could start a hall of
fame
I wonder why I worry over you
If I walk out tomorrow it wouldn't bother you
You've got another waitin' now to see just what I do
And you're not worth to what it takes to mention your name
I wonder why I worry over you
