

# Party Party

## Eruption

Party, party, we gonna party  
Party, party, we gonna party  
Party, party, we gonna party  
Party, party, we gonna party

Party, party, we gonna party  
Party, party, we gonna party  
Party, party, we gonna party  
Party, party, we gonna party

I want people make you stomp your feet  
Can't help dancing to this grooving beat  
Party people having fun you'll meet  
Get it down to our disco sound

People, people, don't you stand around  
Clap your hands, let us party down  
Up and down, turning round and round  
Let us party down, yeah

Party, party, we gonna party  
Party, party, we gonna party  
Party, party, we gonna party  
Party, party, we gonna party

Everywhere that you hear this song  
Party people will all get down  
Doin' their thing without a care  
Get it down to our disco sound

Feel so free to do what you feel  
Sing or dance, and stomp your feet  
Come on, baby, come dance with me  
And let's party down, yeah

Party, party, we gonna party  
Party, party, we gonna party  
Party, party, we gonna party  
Party, party, we gonna party

Party, party, we gonna party (Yeah, we gonna party down)  
Party, party, we gonna party (Come on, dance around)  
Party, party, we gonna party (Everybody, stomp your feet)  
Party, party, we gonna party (Jump on the beat)

Party, party, we gonna party (Get on down)  
Party, party, we gonna party (Come on, turn around)  
Party, party, we gonna party (That's right)  
Party, party, we gonna party (Get down all night)

Party, party, we gonna party (Oho, we gonna party down)
