

Les Enfants Terribles

Escape the Fate

I still remain
You've gone too far
I swear to god
That all of you fuckers will pay
In the end
There's no second chance
The worst is yet to come

We are a terrible children
The bringers of light and death
Oh, we are a terrible children
The bringers of light and death

With scars on our hearts we will rise
(We won't fall victim)
With blood on our hands we survive
(We won't fall victim)

I'm taking back
The life you stole from years ago
My soul is painted in black
Here I am
Traumatized and horrified
But I will not back down

We are the terrible children
The bringers of light and death
Oh, we are a terrible children
The bringers of light and death

With scars on our hearts we will rise
(We won't fall victim)
With blood on our hands we survive
(We won't fall victim)

Like fire
we burn through the night
(We'll keep on burning)
Like fire
we burn through the night
(We'll keep on burning)

(WE'LL KEEP ON BURNING)

Death before dishonor
I will die before I falter
Death before dishonor
I will die before I falter

With scars on our hearts we will rise
(We won't fall victim)
With blood on our hands we survive
(We won't fall victim)

Like fire
we burn through the night
(We'll keep on burning)

Like fire
we burn through the night
(We'll keep on burning)
