

# Little Bit of Lovin

Europe

Give a little bit of lovin'  
And I'll treat you right  
Give a little bit of lovin'  
And I'll stay the night

Just like a gypsy  
I come to town  
I've been longin' for that girl  
I left behind  
I might be a fool yeah  
But come what may  
I've been lovin' every minute  
Everyday

Give a little bit of lovin'  
And I'll treat you right  
Give a little bit of lovin'  
And I'll stay the night

I don't need nobody  
I stand alone  
But there's a woman that I  
Like to call my own  
I ain't got the money  
To make her shine  
But I've got plenty other ways  
To make her mine

Give a little bit of lovin'  
And I'll treat you right  
Give a little bit of lovin'  
And I'll stay the night

You got to give me some lovin'  
I'm gonna make you feel so good

She's got deadly eyes  
A twisted mind  
She's one in a million  
One of a kind  
Cold chills runnin'  
Down to the bone  
She gives me lovin'  
Like I've never known  
We tumble and roll over  
'Til the break of day  
She's so wild  
Blows my world away  
With her there's nothin'  
I wouldn't do  
Baby we've got something  
To hold on to  
Lay it down and it's plain to see  
The woman's got the best of me
