Eve

Ladies and gentlemen (ladies and gentlemen)  
It's about that time again (okay)  
You know what I'm sayin' (it's about that time)  
Check this out, aha  
We got Eve in the building (we got Eve)  
That's right, we got Eve, E-V-E

Uh, uh  
Now I ain't never been the type ta  
Not excite ya  
Can't miss the vixen that meant you like her  
Play a position just might invite ya  
Party till the morning if she like ya  
I ain't attracted to no lame dudes  
Don't wanna name a few  
Don't lie either do don't ask she might be naming you  
When I'm allergic to these corny bitches  
Tryna start shit to end my freeze unto upon my riches  
Game been a part of me dog and I'm a keep winnin'  
Never should have started me off I love the way I'm livin'  
And they wonder why she won't stop  
Sit around mumblin' to myself hoping that my shit flop  
Yeah that's the shit I like to laugh at  
Obsessed with my every move dummy find a crash test  
Every year I'm just a little wiser  
Ah yeah it's still going, left in the race

Yo she got em like E  
Everyday eating and taking it to the V  
Vixen V-12 with systems, E  
Everybody keeping it moving  
It's double R flowing hard  
This is Eve-olution now scream E  
If you really ready we taking it to the V  
Vicious spit flows ridiculous, E  
Say it like you know the letters  
Bombshell when the clothes a fetish  
Just scream my name for me

I'm a hustle till I'm stacked up  
Lot more to do when it's cool then I'm a pack up  
Pass the torch along to someone else  
But right now hold me down, little selfish thinkin' of myself  
Took a long time to make it here  
Before I make a move a make a plan just so I can be prepared  
Ain't no turning back it's heavy now, fuck the petty shit  
Bigger better shit and I'm ready now

Yo she got em like E  
Everyday eating and taking it to the V  
Vixen V-12 with systems, E  
Everybody keeping it moving  
It's double R flowing hard  
This is Eve-olution now scream E  
If you really ready we taking it to the V  
Vicious spit flows ridiculous, E  
Say it like you know the letters

Bombshell when the clothes a fetish  
Just scream my name for me

Uh, yo, okay she talk a lot of shit  
Cocky got plenty lip  
Promise myself that I never live pennyless  
Took a couple trips  
Hopped in and out of plenty whips  
Stacked up the game now she reading plenty scripts  
Yeah I'm accustomed to the good life  
But don't get it fucked up I owe it all to the hood life  
Congratulate her when you see her past  
It's a shame how these shits get agitated when we cross past  
But we ain't even on the same level  
I'm thinking bout a sexy eye baby girl you still nice embezzled  
Smelt right, had to have it  
Third joint still going strong I'm not bragging  
I guess I am a little bit though making it happen  
Who'd have thought I'd be famous one day making it rapping  
Philly, she done lost her mind  
Another hit, dog, the last line

Yo she got em like E  
Everyday eating and taking it to the V  
Vixen V-12 with systems, E  
Everybody keeping it moving  
It's double R flowing hard  
This is Eve-olution now scream E  
If you really ready we taking it to the V  
Vicious spit flows ridiculous, E  
Say it like you know the letters  
Bombshell when the clothes a fetish  
Just scream my name for me
