

# Longest Goodbye

## Example

Neither here nor there  
Wasn't truth or dare  
Didn't look too hard  
Cause it's rude to stare

This is the longest goodbye of his life  
It's not what he wants to be  
Tryna be the good guy all his life  
Walking on the thinnest ice  
Hiding in the dimmest lights  
Waiting in the coldest nights  
For something that was never gonna be  
For something that was never gonna be

He loved you with the wrong side of his heart  
This is how the castle's meant to fall apart  
Broken down again and now the car won't start  
The wrong side of his heart  
The wrong side of his heart  
The wrong side of his heart  
The wrong side of his heart  
The wrong side of his heart

Not today, not again  
Not today, I heard him say  
She's the one that got away  
She's the one that got away

He loved you with the wrong side of his heart  
This is how the castle's meant to fall apart  
Broken down again and now the car won't start  
The wrong side of his heart  
The wrong side of his heart  
The wrong side of his heart  
The wrong side of his heart  
The wrong side of his heart

Neither here nor there  
Wasn't truth or dare  
Didn't look too hard  
Cause it's rude to stare

He loved you with the wrong side of his heart  
This is how the castle's meant to fall apart  
Broken down again and now the car won't start  
The wrong side of his heart  
The wrong side of his heart  
The wrong side of his heart  
The wrong side of his heart  
The wrong side of his heart
