

## Next Year

### Example

Just when the flame has settled  
The second fire rises  
Oh, how I love my life  
But hate these dark surprises  
Just when the pain has settled  
You face another crisis  
Oh, how I love my life  
But hate these dark surprises

It's time we face the sun  
Breathe & start to run  
Putting pressure on my lungs,  
Can you feel that pressure?

Never fear, the sunset's near  
Bring us here and we're happy 'till next year, yeah  
You and me, our mind run free  
Bring us near and we're happy 'till next year  
All, all we need is, oh, all we need is  
All, all we need is, oh, all we need is  
All we need is generation  
Bring us here and we're happy 'till next year

Just when your name feels special  
They come in different guises  
Oh, how I love my life  
But hate these dark surprises  
You feel the angels bless you  
Their soft touch energizes  
Oh, how I love my life  
But hate these dark surprises

It's time we face the sun  
No more childish fun,  
It's the special kind of love  
And you feel so special!

Never fear, the sunset's near  
Bring us here and we're happy 'till next year, yeah  
You and me, our mind run free  
Bring us near and we're happy 'till next year!  
All, all we need is, oh, all we need is  
All, all we need is, oh, all we need is  
All we need is generation  
Bring us here and we're happy 'till next year!!

If we're having these kickin' for rest for the weekend,  
Don't you know ain't got problem with livin'  
'Cause I live on the effect  
Don't you know?  
Don't you know?  
Don't you know?  
Don't you know?  
Don't you know?...

Never fear, the sunset's near  
Bring us here and we're happy 'till next year, yeah

You and me, our mind run free  
Bring us near and we're happy 'till next year  
All, all we need is, oh, all we need is  
All, all we need is, oh, all we need is  
All we need is generation  
Bring us here and we're happy 'till next year

Happy 'till next year  
Happy 'till next year  
Happy 'till next year  
Happy 'till next year
