

# You're Too Much

Failure

I love to hear you talk  
and I love to watch your head move  
I love to tune you in every night  
and I love to watch you with ice cream

Chocolate chip, with a little whipped cream  
I love to hear your opinion  
and I love to share it with all of my friends  
I love to feel so informed  
I love to watch your little mouth

Because you're just too much  
The way you smile  
The way you dress  
The way you stress  
Sometimes I get to wondering what it is you're talking about

I love to hear your opinion  
and I love to share it with all of my friends  
I love to'  
I love to'  
I love to'  
But I don't want to  
But you're just too much  
The way you smile  
The way you dress  
The way you stress  
Sometimes I get to wondering what it is you're talking about

You're just too much  
I can't control myself  
The way you stress certain items  
These things stick out to me, too  
I love you
